Labels and their colors

Labels are used to draw users attention to some menu items, simplify navigation and enhance the menu's look. Label which are used the most are «SALE», «HOT», «NEW», «WOW», «UNIQUE» and so on. Long titles are not recommended.

Be careful, you need to change the color obligatory, otherwise the label will not appear. The default color (**#17cf00**) is not visible, you need to change it.

Dropdown background

There are 2 variants of the background.

The first one is a color. It is white by default. If necessary set it with the color selector.

Save and Stay

Select a content type: [a category](#), [a product](#), [custom HTML](#) or [a manufacturer](#). Each type has its own options and is described below.

When the content type is selected and configured press **«Save and Stay»**.

Content columns (content width)

The number of content columns available is limited by the menu type (the number of columns) of the MegaMenu item the content belongs to.
For example, there is a MegaMenu item called «Warm clothes» (the menu type is 3 columns), there are 2 contents inside: Categories and Manufacturers. The limit of content columns of each content is 3 columns due to the value of the parent MegaMenu item.

The value defines the width of the content. Compare:
1) **3 columns**

Coats
Hoddies
Jackets

Shirts & Blouses
Blouses
Shirts
T-shirts

Warm clothes
Cardigans

No matter what content type is selected the width is defined by the number of columns selected.

Category

That type displays categories which are selected in the category tree. Just check desirable categories to display them in the dropdown.

Product

That content type is responsible for displaying certain products. You need to enter the product's title or ID (at least a part) and then select the required one from the list.

To remove products from the content just press the appropriate icon right to the required product.

Custom HTML

That type makes you able to add text, images, videos, tables, custom links and so on. Enter the text, use a panel bar to add images or videos and format content.

Manufacturer

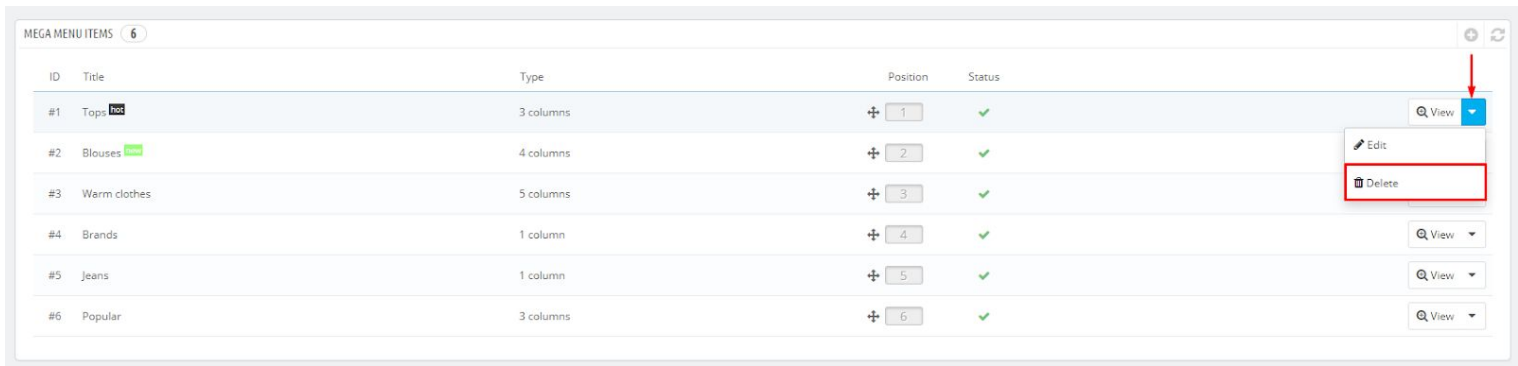

The manufacturer type displays logos of selected manufacturers. Just check the required ones.

Manufacturers are created in Catalog -> Brands & Suppliers.

Managing items and contents

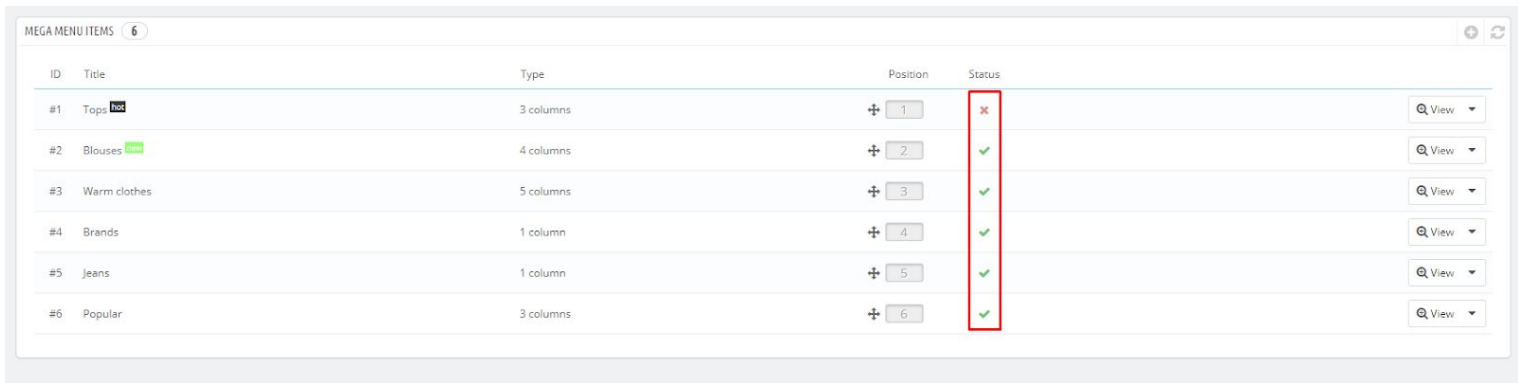

Deleting

To delete either an item or a content choose one, open the side menu and press «Delete».

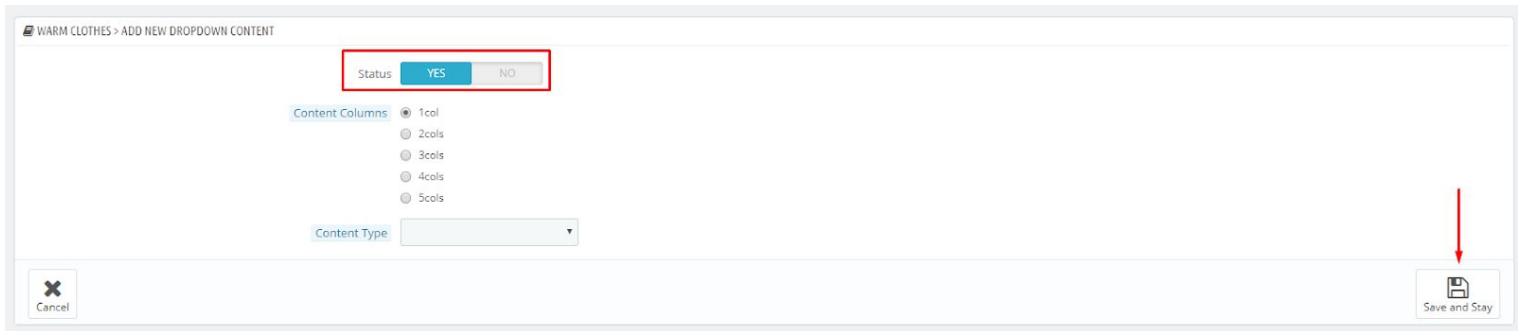

Disabling and enabling

To enable or disable either an item or a content choose one and click the status icon.

The second way is to edit the desirable item or content, change the status and save.

Reordering

To reorder either an item or a content choose one, then drag and drop it with the appropriate icon wherever you want in the list.
